

#1 The Stadium Course

Par 4 423 Yards

Course Notes

Upon a shot landing or rolling into a grass bunker on this course, treat any roll the same as the rough (RR). Roll one die before the next shot. If this roll is 1, 2, or 3, use the sand column for the next shot. If the roll is 4, 5, or 6, use the rough column for the next shot. In either case, use the RR lie chart if using the lie charts.
 When chipping from the left side of the green, after hitting your shot, roll two dice and add them. Add this to any resulting putt distance.
