

### 1966 APBA PRO FOOTBALL SET ROSTER

The following players comprise the 1966 season APBA Pro Football Player Card Set. The regular starters at each position are listed first in bold and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.

A number in (j)s after a players name is the number of cards that player has in this set. No number after the name, the player has only one card. Players highlighted in yellow played for two or more teams. The player is listed with the last team he played for.
