

APBA 2016 Football Game Card Set

The following players comprise the 2016 season APBA Football Player Card Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.

Players in yellow played for two or more teams in 2016.

For teams that employ the "read/option" concept as part of their standard offense, the quarterback can also be used as a runner on the outside running play . (similar to a halfback or fullback). Examples of these teams include 2013 Seattle, 2013 Auburn and many other college football teams.

The issue is the "Jet Sweep" (slot receiver goes in motion and receives handoff from quarterback), this play is not a trick play but a designed outside run.

If a WR had 10 or more runs in a season, he will be graded (EB/HB). APBA considers the "Jet Sweep" (receiver in motion receiving handoff from quarterback) to be graded an outside run and not a trick play. To accomplish this play, certain receivers will receive the (EB/HB)
