

APBA 1976 Football Season Card Set

The following players comprise the 1976 season APBA Football Player Card Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.

Player highlighted in yellow played for two or more teams.

For teams that employ the "read/option" concept as part of their standard offense, the quarterback can also be used as a runner on the outside running play (similar to a halfback or fullback).
