

2015 APBA PRO FOOTBALL SET ROSTER

The following players comprise the 2015 season APBA Pro Football Player Card Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life. IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting.

Players in **bold** are starters.

If there is a difference between the player's card and the roster sheet, always use the card information. The number in (js after the player name is the number of cards that the player has in this set.

See below for a more detailed explanation of new symbols on the cards.

If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.
