

APBA 2024 Football Game Card Set

The following players comprise the 2024 season APBA Football Player Card Game Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.

See below for a more detailed explanation of new symbols on the cards.

Starting with the 2022 Pro Football season, there is a new quarterback designation (QB*). A QB* is treated like a regular running back. A QB* is graded as a combination running back. If you are playing a QB*, you will have to call run plays for the QB. Otherwise the QB will not have enough rushing attempts using just the scrambles in the P column.

The issue is the "Jet Sweep" (slot receiver goes in motion and receives handoff from quarterback), this play is a designed outside run. If a WR had 10 or more runs in a season, he will be graded (EB/HB). APBA grades the "Jet Sweep" as an outside run. To accomplish this, certain receivers will receive the (EB/HB) designation.

New symbols: FR-0. Fumble recovery at spot of fumble.

W-X (0) Interception with no return

TC-0 Punt return with no return.

KC-0 Kick return with no return.

OSKR-0 Onside kick recovered no advancement.

TC-FC Punt return with all fair catches.
