## NEW — APBA BASEBALL INNOVATOR CHANGE NUMBERS & RATINGS ON DATA DISKS!

APBA BASEBALL INNOVATOR displays APBA card numbers, Master symbols, fielding ratings, pitching grades and real-life statistics for any player on a data disk. And, since many APBA fans love to tinker with APBA cards, this new program allows you to change them! Yes, you can modify numbers, symbols, ratings, grades and characteristics (bat-throws). You can add positions to a player's computer "card." If you wish, you can adjust his actual stats.

**YOU CAN EVEN CHANGE A PLAYER'S NAME!** On the computer screen, that means you can become Babe Ruth, Mike Schmidt or any other player on one of your data disks. All you must do is change the name for the player you select to your own, and his stats and "card" will belong to you.

For the dedicated APBA fan and for APBA computer leagues, APBA BASEBALL INNOVATOR is an extremely powerful and useful program. It's a whole lot of fun, too. Order now — the price is only \$44.95!

The system requirements are the same as those listed for **StatMaster** on the enclosed dark yellow flyer (IBM format only, at least one 5¼" 360K floppy drive, 256k memory, etc.) — please read them carefully.

The description includes hardware requirements. We strongly suggest you check those requirements before buying the game, since we make no refunds or exchanges.
