

GET YOUR OWN PERSONAL APBA BASEBALL CARD!

Now we can make a personal APBA baseball card for you. Or we can make a set for your entire sandlot baseball, church softball, Little League or any other baseball team! Maybe you'll just want to add your card to your favorite big league club!

Each card is calculated with the actual APBA card-making formula used for the real big league players every year. It has the same front (black and red numbers) and back (blue) as the cards in the regular APBA game set, uses the same card stock, and is round-cornered as well (not perforated like XB cards). In addition, we'll include Master Game symbols on the card face, giving the card a look identical to the 1951 Brooklyn and New York teams in the Master Game.

Each card is created from scratch with statistics you furnish yourself. You must provide us with the following information (* indicates a personal evaluation you must make yourself. Be honest!):
