

APBA 2002 Football Season Card Set

The following players comprise the 2002 season APBA Football Player Card Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life. The numbers in parentheses beside "Offensive Platoon" and "Defensive Platoon" are the point totals for the team's starting offensive and defensive units, respectively.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting.
