

APBA 2014 College Football Season Card Set

The following players comprise the 2014 season APBA College Football Player Card Set. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life.

IMPORTANT: When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column, and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "F-K" or "F-P" appears on a players card, it means that you use the K or P column when he recovers a fumble.

Players in red have an individual player card. The other players are rated for APBA College Football.

ALABAMA (83) Semi-Finalist

OFFENSE

Wide Receiver: Amari Cooper
DeAndrew White OC

OPTIONAL TIMING RULES: After each team is a number in (). This is the team's play rating. In this new system, you add the play rating of each team together and then divide by four to compute the number of plays per quarter. For example, Ohio State (82) is playing Oregon (84). Ohio State's play rating is 82 and Oregon's is 84. The play per quarter is 42. (82+84)/4. Always round up.

Dice Roll:	2	3	4	5	6	7	8	9	10	11	12
Adjustment:	-2	-2	-1	-1	0	0	0	1	1	2	2

Continuing the Ohio State Oregon example, a 5 is rolled. The plays for this quarter would be 41 (42-1). This is an optional system to account for the increased number of plays in the current era of football. In no case should the number of plays be less than 30 per quarter.

To determine the play rating for other teams, you calculate the sum of that team's runs, passes, sacks, punts, kickoff returns and field goal attempts. This amount is divided by the number of games played. Always round up.
