Howard has two cards. One is a three column card. The other is a one column card. Every time Howard touches the ball refer to the three column card. If the first column dice roll results in a G, refer to Howard's one column card. If the first column dice roll result on the three column card is a zero, roll the dice again. With this dice roll check the second column for results. If the dice roll results in a G, refer to Howard's one column card. If the dice roll result is a zero, roll the dice again. With this dice roll check the third column for results. If the dice roll result is a G refer to Howard's one column card. If the third column dice roll is 1, Howard has a shot on goal. Proceed with the normal game procedures for a shot on goal.

Names in red are players with multiple teams. Player has a card for each team he played with this season.
PKA is primary penalty kicker. PKB is secondary penalty kicker.
